IBDP Results 2025: Showcasing Academic Success

This July, we celebrate our IBDP learners who have transformed dedication into achievement through outstanding performance across all subject areas. Their academic outcomes reflect individual commitment, perseverance, and the collaborative support of our entire learning community, showcasing consistent growth and preparation for future success.

TOP SCORERS OF 2025

Among this accomplished cohort, we are pleased to recognise our top 4 achieving learners whose results exemplify the spirit of inquiry and dedication that defines our community.

The IBDP Results Are Out!

Congratulations!

What matters most to us extends far beyond these remarkable scores. We take pride in witnessing how our learners have evolved into thoughtful individuals who question deeply and care genuinely.

As they step forward into their next chapter, they carry with them not just academic achievements, but the enduring connection to a community that will always support and celebrate their continued growth.

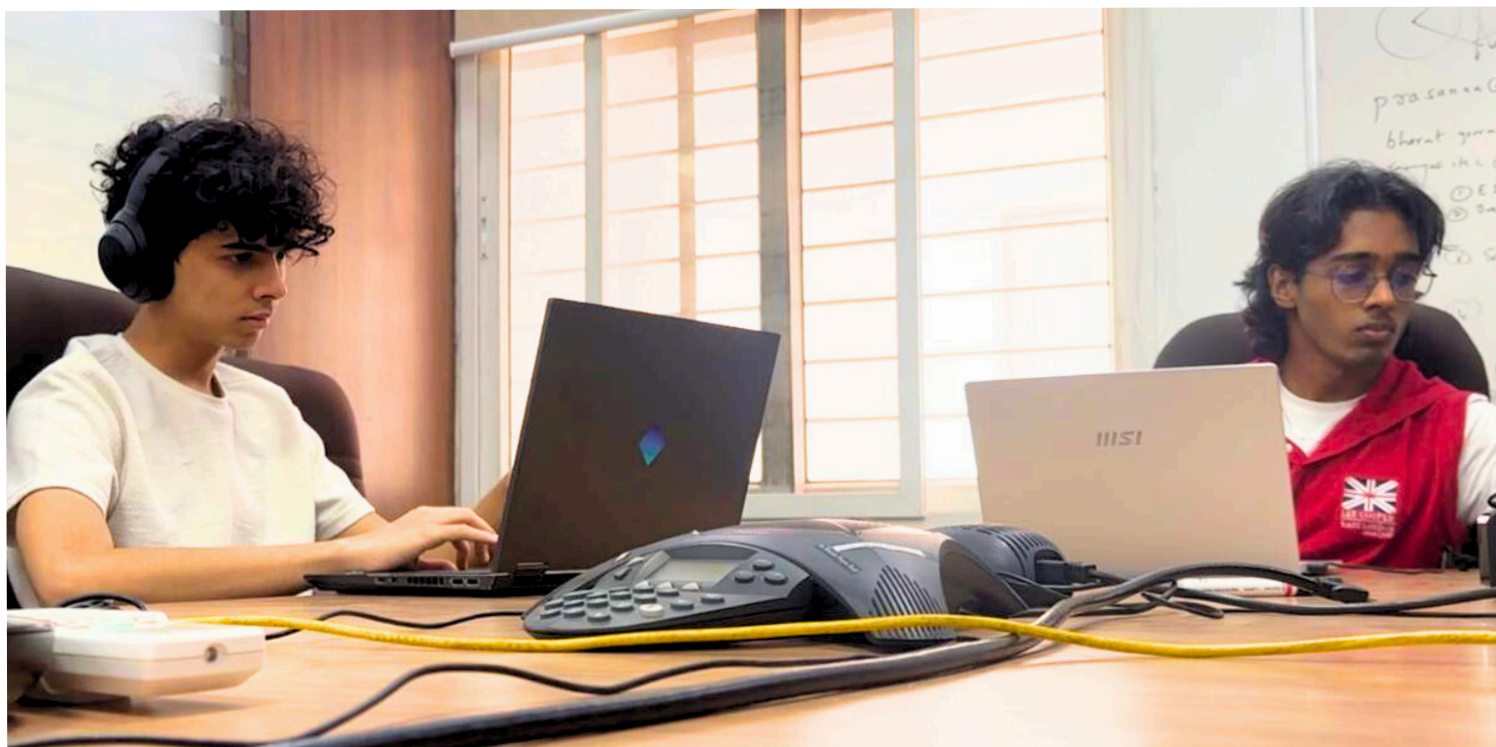

From Curiosity to Career Clarity: Internships Spotlight

At Knowledgeum Academy, knowledge finds its purpose through practical experience.

This summer, learners transformed academic curiosity into professional engagement, demonstrating how education creates pathways to meaningful career exploration.

RESEARCH EXCELLENCE AT IIA

Satya and Moksh, our IB DP2 learners, engaged in astrophysics research at the Indian Institute of Astrophysics (IIA), exploring topics from early star formation to telescope systems. They developed essential research skills including data interpretation and communication.

SATYA'S TECHNICAL DISCOVERY

Speaking about his time at IIA, Satya Suchak reflects, *"Working alongside passionate scientists has been inspiring. This experience introduced me to real-world applications of concepts I'd previously only seen in textbooks."*

MOKSH'S RESEARCH JOURNEY

Reflecting on his research experience, Moksh Yellapu shares, *"At the beginning, everything was foreign to me – loads of Greek letters and colourful graphs – but eventually I got the hang of it. Understanding what was a foreign language felt extremely rewarding."*

Bridging the Classroom to the Real World

Axiom Mission 4: Three Nations Return to Space

The *Axiom Mission 4* marked a historic new beginning as astronauts from India, Poland, and Hungary launched to the International Space Station for the first time in over 40 years.

- The mission conducts 60 scientific studies representing 31 countries
- Its research spans human health, Earth observation, and materials science

This connects to IBDP Physics through microgravity experiments and demonstrates to IB learners how global partnerships advance scientific knowledge.

Focal Lens - A Visual Arts Directive

Art as Resistance: Barbara Kruger's Bilbao Exhibition

Kruger's exhibition *Another day. Another night* transforms the Guggenheim Museum Bilbao into an immersive experience of visual resistance:

- Bold typography challenges viewers to question societal norms
- The iconic *I shop therefore I am* installation explores consumption
- A new work in Basque connects art to local identity

For IB learners exploring visual communication, her work shows how images and text provoke thoughts.

The Knowledgeum Spotlight

Upcoming Event

DP1 Orientation Programme | 14th – 18th July

Knowledgeum Academy eagerly anticipates welcoming the incoming DP1 learners to the International Baccalaureate journey. Through engaging activities and community connections, new learners will discover the collaborative spirit and global perspective that define our educational approach. This comprehensive programme marks the beginning of their transformative two-year adventure in inquiry-based learning.

University Pathways: The Value of Career Counselling

Career counselling provides IB Learners with the structured support, expert insights, and personalised guidance they need to navigate their academic and professional journeys with confidence.

Why Career Counselling Matters

- **Personalised Guidance:** Tailored advice based on your unique strengths and goals.
- **University Guidance:** Navigate applications with insider knowledge and connections.
- **Market Insights:** Understand emerging careers and valuable future skills.
- **Stress Reduction:** Transform overwhelming choices into manageable, strategic decisions.
- **Future-Ready Skills:** Develop decision-making abilities and adaptability for career success.
- **Global Opportunities:** Explore international career paths that match your IB global mindset.

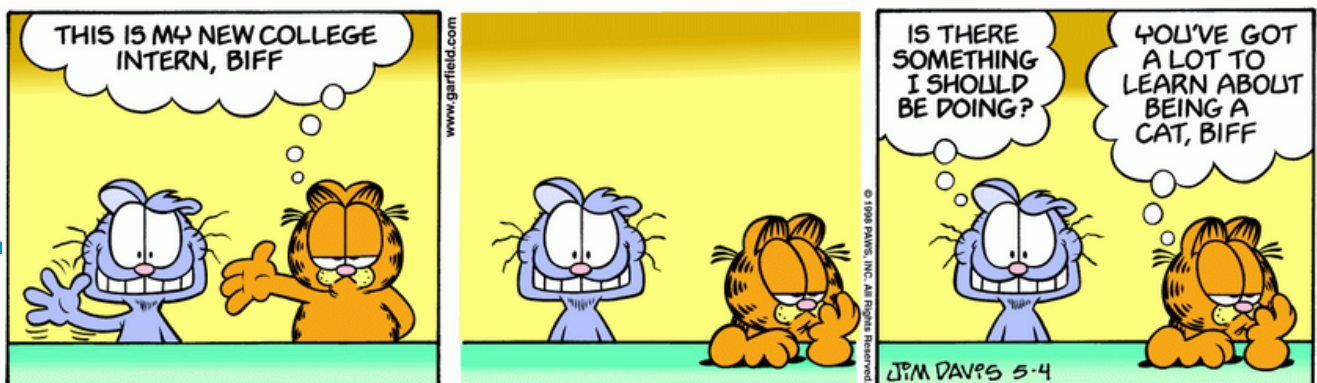

5 Things To Seek From Career Counselling

- ❑ Skills assessment to identify your strengths and options
- ❑ Strategic university guidance
- ❑ Industry insights about emerging fields
- ❑ Decision-making frameworks to manage choices
- ❑ Personalised action plans for the future

Career counselling bridges academic achievement and professional success, providing clarity and strategic direction for your future.

Humour By The Hour

This edition's comic strip is **Garfield**, created by Jim Davis in 1978. The beloved series follows the lazy orange cat Garfield and his humorous observations about life.
